

# E2O SEMINAR 2024

**20 Feb 2024**  
At 08:00AM

**Hanoi**  
Intercontinental  
Hanoi, Landmark72

**EATON, EETARP, AND OPTO22 UNITE FOR “E2O” TO LEVERAGE OVER A CENTURY OF EXPERTISE IN POWER MANAGEMENT, ELECTRICAL SAFETY, AND INDUSTRIAL AUTOMATION FOR IOT SOLUTIONS.**

## ABOUT THE SEMINAR

More than a century old power management company, Eaton; a twenty-five years old company with experience in electrical safety, power quality, and software based monitoring, Eetarp; and a more than forty-five years old company in industrial automation, Opto22; warmly welcomes you to our E2O Seminar.

Where Eaton, Eetarp, and Opto22 join forces to bring over a century of collective expertise in power management, electrical safety, and industrial automation and control solutions for internet of things (IoT). Despite the apparent similarities in our fields, the extent and capabilities of our respective solutions vary significantly. In the realms of BMS, EMS, DCIM, and Automation, each company brings unique strengths and functionalities to the table. Take, for instance, Eaton's DCIM Software (DCPM), which offers a highly customized workflow module, a self-helped Digital Twin module, and PowerBI functions. Recognizing the distinct strengths of each company, E2O has chosen to collaborate and leverage these differences to create a comprehensive solution.

# E2O

## REGISTER NOW

OUR COLLABORATIVE EFFORT AIMS TO SHOWCASE THE **SYNERGIES AND POSSIBILITIES** THAT EMERGE WHEN COMBINING OUR DIVERSE PRODUCT OFFERINGS.

Eaton DCPM/EPMS serves as the core software, collating information from Eetarp and Opto22 to provide a unified view of a customer's entire infrastructure, particularly beneficial for those with multiple buildings of different brands and products.

Eetarp excels in BMS/EMS capabilities, offering highly customizable HMI and dashboards. Additionally, Eetarp supplies cost-effective meters and controllers with user-friendly BMS software.

## OPTO 22

Your Edge in Automation.™

Opto22's Groov Family introduces versatile soft PLCs like RIO and EPIC, featuring advanced capabilities such as VPN, Firewall, and MQTT support, making them ideal for large enterprises and edge environments.

## JOIN US

Join us in this evolutionary event and witness the transformative potential of our joint solutions.

## WHAT TO EXPECT

- ✓ Unparalleled expertise from three leading companies with a collective experience
- ✓ A full seminar day where we showcase our comprehensive solutions
- ✓ Informative networking event with possibilities for your projects and operations

**20. February 2024**
