

7<sup>th</sup> April 2020

**To our valued business partners**

In order to react appropriately to the current dynamic situation regarding the spread of the coronavirus, Eetarp has already intensified its emergency measures based on its BCP (Business Continuity Plan). The preventive components affect all sites of the Eetarp Group, to protect the health of our employees and to prevent the spread of the coronavirus.

In regards to the instructions of the Government, announced on April 3, 2020, we hereby want to inform you that Eetarp Engineering officially has permission from the Government to continue working. Therefore, from April 7, 2020, to May 4, 2020, we will remain open to be able to provide comprehensive support to our essential service provider.

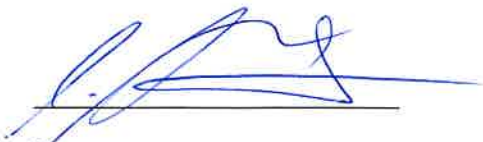

However, whenever it is applicable, all employees work from home to minimize any physical contact.

Please note that this will not affect measurements, which already take place.

We highly respect the decision from the Governments and do our best to contribute as much as possible to improve the current situation.

If you have any questions, please don't hesitate to contact us.

Yours faithfully

**Michael Breuer**  
*Managing Director*
